PROFESSIONAL SUMMARY

Full-stack software engineer with freelance experience delivering 18+ production-grade web applications. Cyber Security graduate (HITU) with expertise spanning frontend UI engineering, backend API design, database architecture, and DevOps tooling. Known for treating invisible engineering details — error handling, state management, performance, security — with the same care as visible interfaces. Available for remote work globally.

TECHNICAL SKILLS

Frontend: Next.js, React, TypeScript, Tailwind CSS, Redux Toolkit, React Query, Framer Motion, GSAP, Vite

Backend: Node.js, NestJS, Express.js, PostgreSQL, MongoDB, Prisma, Sequelize ORM, Redis, WebSockets, Socket.io

Tools & Other: Docker, Firebase, JWT, Zod, Vitest, Swagger, Figma, Git, GitHub

PROJECTS

Code — CRM Real Estate Dashboard

Tech Stack: Next.js, TypeScript, Node.js, MongoDB, Web Push, Zod

GitHub: github.com/YasinEmad/Code_CRM | Live: code-crm.vercel.app

End-to-end real estate CRM covering the full sales pipeline from lead capture to deal closure. Built an automated multi-party commission engine that routes calculations to managers for approval. Implemented GPS-based attendance verification to confirm employee location at login. Includes real-time push notifications and role-based access control for team oversight.

Cyber Mind — Cybersecurity Education Platform

Tech Stack: React, TypeScript, Node.js, Express.js, PostgreSQL, Firebase, Gemini API, Redis, Framer Motion

GitHub: github.com/YasinEmad/Cyber-Mind | Live: cyber-mind-three.vercel.app/

Full-stack monorepo platform for cybersecurity learning with specialized execution engines for puzzles, coding challenges, and live Capture The Flag (CTF) competitions. Features Google Sign-In via Firebase, cookie-based sessions, and granular role-based access control. Integrates Gemini API for AI-powered code evaluation. Includes an admin dashboard for user management, challenge configuration, and content templates.

Bedaya — Healthcare Management System

Tech Stack: React 18, Node.js, Express.js, PostgreSQL, Sequelize ORM, Socket.io, Redux Toolkit, React Query, Zod, Vitest

GitHub: github.com/YasinEmad/Bedaya-v2/tree/main | Live: bedaya2.ggpanel.site/

Enterprise healthcare management system unifying multi-clinic patient records, pharmacy inventory tracking, and laboratory test workflows. Real-time data synchronization via Socket.io, JWT authentication, and detailed compliance audit logging. Monorepo structure with shared Zod validation schemas, interactive OpenAPI/Swagger documentation, and comprehensive Vitest automated test suites.

EDUCATION

Bachelor of Science in Cyber Security

Hilwan International Technology University (HITU)| Cairo, Egypt

ADDITIONAL

Soft Skills: Problem Solving, Attention to Detail, Product Thinking, System Design, Written Communication

Languages: Arabic (Native), English (Professional)
